

## 30 day LOVE YOUR HOME DECLUTTERING CHALLENGE!

### Day 28 – Protect Your Valuables: Part 1

*Well done. - we are nearly finished the challenge!*

Today is a fun day. Charge up that camera battery and get ready to click. In order to be the most organized person you know, we are going to complete one last two-day project. We will be creating another book but this time it is for insurance purposes.

- Take an overview picture of each room in your house and then a second picture of each item. So, for your family room, take a shot looking into the room then one of just the sofa, the TV cabinet, the end tables and coffee table, the artwork and then the TV and stereo equipment.
- You can have a partner follow you around with a video camera, if you like but we want still pictures for this project.
- Don't forget the kitchen appliances, the new furnace you installed last year, the inside of your closets and the patio furniture and other outdoor gear.
- Be sure to take close-ups of any specialty items like jewellery, artwork and furs.

## 30 day LOVE YOUR HOME DECLUTTERING CHALLENGE!

- Give the video tape to a friend or relative to keep at their house and take the time tonight to get those pictures off your camera and onto your computer, all properly labeled.
- Order a copy of each one to be picked up tomorrow. Many large super stores have one-hour photo departments for very cheap prices, or you can order online.

*We'll finish this project tomorrow.*
