

## 30 day LOVE YOUR HOME DECLUTTERING CHALLENGE!

### Day 30 - Finishing Up

You did it!!

You worked hard, got messy and triumphed over the clutter and as a result - you are now the proud owner of a completely organized house!

Congratulations!

Maintaining your organized home should only take a little effort each day, but here are a few special tips to remember:

- Don't fall into the habit of growing "the spot" again! it will only lead you down the path of chaotic mess. You've been there and don't want to go back - right?
- Update all your books as you switch doctors, change insurance providers or inherit grandma's brooch. If you do these things as they happen, it will take much less time than if you put it off and try to do it all at once.
- Print out and keep a copy of the 30 Day Love your Home Decluttering Challenge. Try to run through each day maybe once a week in order to stay on top of each area.

Some people like the concept of a big Spring Cleaning each year but truly organized people know that staying on top of things on a daily and weekly basis is the way to go. Preventing the clutter and disorganization in the first place eliminates the need for a massive cleaning effort.
